

CAMELBACK MONTESSORI COLLEGE PREPARATORY

MONTESSORI EDUCATION

Started in 1907 by Dr. Maria Montessori, a Montessori curriculum emphasizes education of the whole child.

As a microscool within Camelback High School, our students receive the benefits of a small-school feel alongside the opportunities of a comprehensive, large high school campus. Our holistic program addresses the need of the adolescent through:

- **Work of the Head**- Student-centered, choice-based authentic learning with an emphasis on college planning
- **Work of the Hands**- Off-campus field studies, real-world projects, connection to nature, and service work
